Justin,

Under the pretext of gaining employment Greek Orthodox Metropolis of San Francisco, in the face of Metropolitan Gerasimos, committed crimes and abused an individual on levels that is beyond belief.

- From my initial volunteer help that lasted 3 years (no dime was paid to me),
- Then 50-60-70 hours “part time” work that Gerasimos put me through, that even GTU had to send 2 letters that I can help or work only part time,
- Nikita, the Archbishop of England, lured me into his apartment for dinner under the pretext of my employment with the Greeks and then tried to sexually abuse me. He has “a pierced nipple,” with a little earring, if you can believe that,
- I alone submitted my Green Card application — something that Santa Cruz did for Milutin, Stockton is doing for its current second priest, etc., Metropolitan and Metropolis supposedly had no clue that they had at least moral if not legal responsibility to do that for me. I applied for a GAY AZYLUM and that is how I stayed in the country, and no I did not lied to the US Government for that but it definitely it wasn’t an issue from the summer of 2019 even until now for Metropolitan and Metropolis
- My Belmont case happened with me having the least amount of guilt whereas Metropolis, Metropolitan, individuals who gave their reports to the police against me in which they made enormous and grotesque lies and then tried through lies and manipulations to make me write letters of apologies or narratives of what has happened are walking around and attending Churches freely as if nothing happened — all of them have much bigger and greater responsibilities. If anyone had the least amount of knowledge it was me because I had no idea or clue what can be done or what can’t be done (simply raising voice to defend from someone who has been harassing me for months) to most foreigners is not a crime
- I was injured in that same Belmont Church a year before the incident, and I never went to a doctor; 1,500$ that I was living of at that time wouldn’t pay even one X-ray. Today I have consequences on my foot because of that.
- Because of the Metropolitan’s treatment and “led on” that lasted 10 years I am ruined spiritually, morally, socially, economically, and on every other aspect of human life that individual needs in order to be able to live and thrive,
- While I was living in the House of the Metropolis, and I lived there because street was my second option, and living in the House with the Metropolitan shouldn’t be seen as a blessing or honor (in right and genuine circumstances it should) but just one more way to continue abuse and mistreatment and having someone on a call 24/7, because if the Metropolis or Metropolitan were generous as they might claim or want to present themselves you and they should know I never asked or expected anything more than what any other individual seeking a normal job that can sustain one’s basic needs and life. And because I was still genuinely hoping to get a job a was doing anything I could hoping that the Metropolitan will notice and value things that I would or could do, and things that I was doing were from fixing a toilet, cleaning gutters on the house (buying a 32 feet long letter at Home Depot, cleaning everything by myself, and then returning the letter so that the Metropolis does not have an expense), when Paul Gikas found an “expert” to fix 2 small windows for $2,5K as soon as I found that out I contacted both of them, the Abuser in the House and Gikas and told them, naturally, the expert is told not to do the windows and then I fixed them myself, I cleaned the carpet in the offices and in the house, I washed the windows on the house and some of those windows no one could even open because they were so rusty — I washed and fixed every single window that every window could again be fully and normally opened, stove in the kitchen was black because no one cleaned it how it should be cleaned — it was weekend of July 4th last year, when I stayed in the house and did not want to go to San Diego — I cleaned that stove that it was silver as it was when it was new, I bought a pressure washer to clean and wash pathways and driveway, when mouse “expert” came and found 4 holes on the house where supposedly mice were entering he said he can fix 2 of those holes for $2K and the fix was simply to put a new screen, I told Metropolitan that no one will fix anything and I fixed all those 4 holes myself (note that the other two holes involved much bigger work of repatching with cement and installing completely new vents on the basement), I painted doors, some of which were more gross than in Gipsy houses in Serbia, I started doing flowers and plants (even now behind the house you can see flowers that I planted for specific seasons, Christmas, spring, etc), the white fence behind the house was the next one to fall because it was rotten and shaky — I fixed it and repainted it so that now it’s literally immovable. The backyard was just like earth from the creation story, “a void of emptiness,” I planted: lemons, olive, fig tree, persimmon, cherry, avocado, bloody orange, pomegranate, blueberries, strawberries, and 13 Cypress trees. The things I’ve done in the house is something that I don’t believe myself… Luckily, every single thing I’ve done I took pictures, not because I was expecting anything like this to happen but for my own fond memories. The pictures I took will be a testimony against everyone of you.

- After finally getting that employment in July last year it was just obvious that I wasn't treated equally from abuses by Paul Sogotis, Christo Papademas, Bishop John, Metropolitan's double standards and lethargy to offer just a fair address of issues, when/where I literally never asked or expected any "priority" or special treatment because of our "friendship," all I was asking and hoping for is just and equal treatment as it befits any human being or worker. *I have said and I will always say it: he was the one who did (good) things for me like no one else in my life, but he is also who did damages to me like no one else to me in my life (and I am now really wondering what was the purpose or real reason for many "good" things done to me).*
- Even handling this firing shows nothing else but that all this is just a pure scam and shame. Changing a lock on the door and sending me a letter while I was in Mexico, and only a few weeks before that that same Metropolitan wanted to send me to Mt. Athos for whatever reasons… Changing a lock and depriving me of my personal belongings for more than a month can't be justified in any court, and I don't believe Christ ever preached that someone should be made homeless or treated the way I was treated because it was Him also who "did not have where to lay his head" (Lk 9:58).

These are only some of the things that I went through thinking I have to put up with something or sacrifice something for some higher goals. "Severance" that anyone can offer, let alone as miserable as 48,000$ for an unjust and unfounded firing, is nothing but one more humiliation of those same bishops and individuals who have done all those things I just mentioned above and who ironically believe to be an image of Christ!

My employment lawyers advised me to ask for two documents that I have to be provided in this situation and those are:

1. Employee file,
2. If I am being fired the way I am, according the California Law, I must be given what are the accusations reported against me and findings of the purported investigation.

I will strive to as long as I am to make my voice heard and to bring individuals and institution to justice for everything I went through.

I have no reason to lie, and I don't care about any money, but no one should and will not do things I went through and then humiliate me as if it was me who is a "bad" guy. How come for 9.5 years I wasn't that bad to be fired, but only in this last half year after finally I was employed. Metropolitan and Metropolis hired me in order to fire me. *I, once again, genuinely hope that every single individual who intentionally did even one evil thing as well as the ones who approved those evils with their silence see the pain and abuse that I was put under in the pain and abuse of their children and grandchildren.* You and everyone else with you may continue to do what you have been doing. Just don't lie to yourself that you are doing God's work. You all who are engaged in this or similar situations at other Churches are doing evil thinking that you do service to God. I may be whatever I want or whatever I am but I not even once I used, abused, manipulated, or mistreated anyone the way Greek Orthodox Metropolis did through person of Gerry Michaleas and a few of you.

And for the end of this email:

1. Please, send me the two documents I asked above.
2. On Thursday I might have someone who will help me to get some of my stuff from the House. It is essential that I can enter the House in order to pack and take some of my belongings.
3. To anyone who is wise and has some basic human decency and character it's clear what action I will take regarding the severance, but I will contact the Metropolis and you by the day requested with my response regarding that.
4. I was ***always*** sincere and genuine, just as I was on the night when I left to Mexico and told Metropolitan where I am going, which Metropolitan, Bishop John, you, and anyone else involved in this abused in order to carry on your evil deeds, so that's how I am honest now: I truly wish to never see or hear about anyone of you, and I curse the day I entered the Metropolis to ask to be accepted into the Metropolis, but as I already, even before this last issues happened said, the best outcome and end of my "relation" with the Metropolis and the Metropolitan would be if I just walk away and disappear.

But, I will not go away just like that and let the Metropolitan and Metropolis off the hook. I will do anything I can to bring Metropolis and certain individuals to justice (that includes Gerry), and I am more than confident that I will succeed in some aspects of that. What I fail to do here, I am confident, once again, that the Judge in whom we all claim to believe will do with his eternal love that all those, your brothers in Christ, who did nothing but pure evil, will feel and experience as an eternal damnation.

Christ is between us like the ones on his left and right (Mt. 25:31-46), but we can never be in Christ.
